GO No. 541 W

DATED 15.5.1926

[Despatch Abstract.]

C No. 5013 C

Memo No. 5013 C-7 87 30-10-23

(Part II Schemes - Major works - 1924-25 - Construction of a tuberculosis Jail at Arogyavaram - Madanapalle - G.O.1896 Law (Genl) dated 6-8-22).

In the list of Part II Schemes Major Works - 1924-25, the P.W.D. has included the above item and entered a sum of 4.62 lakhs as the total estimate for the work, out of which it was stated that Rs.25,000/- ~~given~~ would be required for expenditure in 1924-25. The estimate of 4.62 lakhs was drawn up in 1920 and rates should have risen since then. The I.G.of Prisons is requested to obtain a fresh rough estimate for the same in the light of the latest rates.

2. The I.G. is requested to furnish information as to the amount of recurring expenditure per annum, and as to the number of prisoners for whom the provision for accomodation should be made.

3. The I.G. is also requested to consider how the estimate of construction will be affected, by the employment of jail labour on the building.

4. It is requested that ~~the~~ ~~rent~~ this reference should be treated as

specially urgent and that the reply should reach Government not later than the 10th* November 1923.

* for orders.

No. G/840

Station Ootacamund, *Dated the* 9th November 192

From (Name) Lieut-Col. J.P.Cameron, C.I.E., I.M.S.,

(Designation) Inspector-General of Prisons,

To The Secretary to the Government of Madras,

Law (General) Department

Fort St. George. Madras.

Sir,

With reference to Memorandum No.5013 C-1, Law (General), dated the 30th October 1923, I have the honour to state that the Superintending Engineer, Madras Circle was requested to submit a rough estimate for the construction of the Tuberculosis Jail, or at least to wire the approximate amount of the estimate and the savings on account of convict labour, to enable me to supply Government with the information required, but no reply has been received from him so far. This information will be furnished on receipt of his reply.

2. The savings, roughly estimated, on account of the employment of convict labour, would be about 25 per cent on the original estimate for the work, exclusive of transfer charges of convicts to Madanapalle from Jails for this work.

3. The number of prisoners for whom accommodation should be provided, should, I consider, be not less than 160; and the annual recurring expenditure will be, approximately Rs.15,000/

4. If the funds required to carry out the work are not forthcoming immediately, and if it is not possible to arrange for the work to be started and completed within a reasonable period of time, say, 2 to 3 years, it will be necessary, I fear, to give up the scheme and take up a less costly one, as prisoners suffering from Tuberculosis are on the increase, and I am at my wits end to know how to deal with them all satisfactorily. There is no use marking time in the hope that the financial stringency will be relaxed in due course and enable the work to be started, unless the Government can state definitely when this is likely to be.

The Madanapalle scheme is an excellent one in every way and it will be with great regret that I shall be forced to set it aside, but, as I have already said, it is better to give it up once and for all, if there is no prospect of the work being sanctioned within a reasonable period of time.

5. As an alternative, I propose for the consideration of Government, the acquisition of the Indian Station Hospital at Bellary. These buildings are not at present required by the Military Department and could be made to suit our purpose; and the climate of Bellary is favourably reported on for the treatment of Tuberculous conditions. I do not for a moment suggest that either the climate or the conditions at Bellary compare with those at Madanapalle, which are ideal in every way, but, if funds are tight, we must do the best we can with the money at our disposal - and we could, in

time, make the Bellary scheme a tolerably successful one.

6. I am given to understand that the Hospital buildings referred to can be obtained, either by monthly rental or outright purchase - but I have done nothing in the matter, except call for a report from the Superintendent and Medical Officer of the Alipuram Jail, as to the suitability of the buildings for a Tuberculosis Prison. It will be seen from their report, a true copy of which I attach for information, that the Hospital block would form a good nucleus for such a Jail, and that ample land in the vicinity exists for the building of additional blocks, quarters for staff etc. It may be possible to convert one or two of the old Infantry Barracks, now in a very dilapidated condition, into quarters for the warder establishment.

The cost, as compared with the Madanapalle scheme, would be very much less, as the land and present buildings should be obtainable for a comparatively low figure, and if Government desire me to do so, I will investigate the question fully and send in a report with rough plans and approximate estimates.

I have the honour to be,

Sir,

Your most obedient servant,

J M Cameron

Lieut-Col, I.M.S.,
Inspector-General of Prisons.

Letter No. 370, dated the 5th June 1923, from Dr. H.Berlie, Medical Officer, Alipuram Jail, Bellary Cantonment, to the Superintendent, Alipuram Jail.

....

With reference to our inspection of the Indian Station Hospital with a view to its suitability for use as a Jail for Tuberculous convicts, I have the honour to state that I consider that it would be most suitable for this purpose. It is situated well to the west of the Cantonment on open and well drained land in a healthy locality, all the buildings, which face East and West, being surrounded by a wall which encloses ample ground for the construction, if required of temporary or other pavilions for the use of the sick for purposes of the open air treatment, or for gardening or other outdoor occupations, a fair number of shade giving trees - already existing in the grounds. A well just outside and to the east of the wall would provide water for all ordinary purposes, but drinking water would require to be brought with from the Fort Ditch or the Artesian well supply. With - - regards to accommodation, each of the two large blocks would be capable of accommodating a maximum of 36 patients, i.e., 24 inside the ward and 12 on the verandah, making use of one of the verandahs of each ward for this purpose and holding the other in reserve for inclement weather, or other such arrangement as may be required. The maximum accommodation for the two blocks would thus be 72 patients. With regards to the "special wards" in the separate small rooms, I do not consider that these are suitable for the treatment of Tubercular patients, but they could be utilized for other purposes such as store rooms etc.

The existing administrative block, which divides the two large wards, could be retained for this purpose, and a Surgery and Dressings room could also be lodged here, as also a room for operating on surgical conditions.

Regarding the staff required, I do not know whether

a special Medical Officer is to be appointed for this --- Hospital or not, and as far as I can see no quarters are available for him in the proximity of the hospital, but at least two Sub Assistant Surgeons will be needed, as there would need to be always one on duty, to attend to the needs of the patients and for any emergencies that might arise, and quarters for them would have to be provided on the spot. The "office" blocks outside the hospital could perhaps be converted into suitable quarters for them.

Trained orderlies could be arranged for as required.

For the warder guard necessary there are available the buildings of the Indian Infantry Lines, and as many of these as are required could perhaps be taken over and put into a state of good repair.

Endorsement No.J/1520, dated the 6th June 1923, of D.A.Greenwood Esquire, Superintendent, Alipuram Jail, Bellary Cantonment.

.....

F o r w a r d e d.

I am of the opinion that this would make an excellent tubercular jail. Staff of 20 warders could be detached fro this Jail; quarters are available.

No medical staff can be spared from here, but I am of opinion that one Sub Assistant Surgeon would be sufficient.

(T r u e C o p i e s).

Copy of a memorandum No.35/4/Q-1, dated the 21st January 1924, from the Headquarters, Bangalore Brigade Area, Bangalore, to the Headquarters, Madras District, Wellington.

B U I L D I N G S.

The Superintendent Alipuram Jail Bellary writes that the Madras Government have decided that if they are able to purchase the Indian Station Hospital Bellary ~~that~~ they will remodel it into a Tubercular Jail and asks

A. Whether the Military Authorities will dispose of the buildings.

B. The price.

My A.C.R.E. has obtained from the Superintendent a signed cutting from the Cantonment Plan showing what is requir a copy of which is attached.

The Capital cost of the buildings as in the A.P.K.S.

No.12.	.. ..	Rs.42887/-
No.12 a.	..	Rs. 609/-
No.12 b.	..	Rs. 990/-
No.12 j.	..	Rs. Nil.

These buildings are not required by ~~the~~ Military Authorities so far as I know.

I have not at this stage asked the Collector at Bellary to value the land and buildings as it seems desirable to have the approval of higher authority that the sale shall be considered before going into the price.

I also suggest that you should obtain confirmation of this enquiry from the Madras Government.

From (Name) Lieut-Col. J. P. Cameron, C.I.E., I.M.S.
(Designation) Inspector-General of Prisons.

To The Secretary to the Government of Madras,
Law (General) Departm
Fort St. George, Madras.

Sir,

With reference to Memorandum No.5274 C-1, dated the 23rd November 1923 and para 2 of Endorsement No.740 C-2, dated the 8th February 1924, I have the honour to forward herewith plans and approximate estimates amounting to Rs.2,10,000/- for converting the Indian Station Hospital buildings at Bellary into a Tuberculosis Jail. An alternative proposal for - - setting up a Tuberculosis Jail at Madanapalle on a modest scale is still awaited from the Superintending Engineer, Madras Circle, and will be submitted to Government on receipt.

2. Provision has been made in the estimate for

Rs.50,700/- on account of compensation to the Military authorities for acquiring the land and the existing buildings, but the capital cost of the buildings as estimated by the Military Department is only Rs.44,486/- Vide letter No. 2406/10/Q, dated the 26th January 1924 from the Officer Commanding, Madras District, Wellington, addressed to - Government. It is likely that the buildings and the land can be got for a price less than the latter amount as the Military authorities are most anxious to get rid of the buildings and will probably accept a nominal price..

I have the honour to be,

Sir,

Your most obedient servant,

Lieut-Col, I. M. S.,
Inspector-General of Prisons.

Sir,

-1111-24 Memo

In continuation of my letter No.G.445, dated the 27th May 1924, I have the honour to forward herewith a copy of communication No.1345 G, dated the 9th July 1924 from the Superintending Engineer, Madras Circle, and to state that the report called for in Memo No.2802 C -1924-1 Law (General) dated 19-5-1924 will be submitted on receipt of a reply from him.

I have the honour to be, Sir,
Your most obedient servant,

J.T. Cameron

Lieut-Col. I.M.S.,
Inspector-General of Prisons.

R.D.

Copy of letter No.1345 G. dated the 9th July 1924 from the Superintending Engineer, Madras Circle, to the Executive Engineer, Bellary Division.

Sub:- Conversion of Indian Station hospital into a Tuberculosis jail at Bellary.

In communicating copy of G.O. No.2802 C/24-1, dated the 19th May 1924, the Executive Engineer is requested to report definite figures regarding accommodation in the nature of number of beds in and out of the proposed Tuberculosis hospital at Bellary.

The detail estimate sent to him for the approximate cost of Rs.2,10,000 for the conversion of the Indian Station hospital into a Tuberculosis jail gives figure about beds out of the hospital viz. two inpatient wards of 20 beds each in front of the Administration block and two cellular wards each for 12 prisoners in rear.

He will therefore report how many beds are proposed in the open air ward on the 1st floor of Indian Station hospital and also if any more beds are contemplated than are mentioned in this letter.

A statement may be furnished showing the number of beds prop the various places and also the total number of beds that sha be available.

No. 1345 G, dated the 9th July 1924.

Copy communicated to the Inspector-General of Prisons, wi reference to his Nos. 5417/27-5-1924 and 6550/24-6-1924. From the estimatesand plans furnished with the letter number quoted above it has not been possible to find out the number of beds i the hospital building, nor do they the reports connected with th throw any light on this. On reply from the Executive Engineer the information required as per para 1 of G.O. No.2802-C/24-1 dated the 19th May 1924 will be furnished. Regarding informati required in para 2 of the G.O. the Executive Engineer, Madanapal has been reminded in this office No.560, dated the 14th June 19

No. G/

Station Ootacamund., *Dated the* 8th August 1924. 191

From (Name) Lieut-Col. J.P. Cameron C.I.E., I.M.S.,

(Designation) Inspector-General of Prisons.

To The Secretary to the Government of Madras,

Law (General) Department.

Sir,

4062

With reference to the correspondence ending with Government Memo No. 4062 C-2 Law (General) dated the 23rd July 1924, I have the honour to submit a report from the Superintendent, Alipuram Jail, No.J. 2340, dated the 25th July 1924, together with the detailed plans of the Indian Station Hospital, Bellary, received from the - - A.C.R.E. Bangalore. The site was again inspected by the Superintendent and the Medical Officer, and from the report of the Superintendent, it will be seen that the lands and buildings referred to in the plans are considered sufficient for converting the Indian Station Hospital into a Tuberculos Jail, except for a piece of land required to serve as a

urial ground. The accommodation provided for, Viz. for 60, is the same as that originally proposed for the - - uberculosis Jail at Madanapalle. In addition to the lands nd buildings required for the Tuberculosis Jail, a plot f land for a burial ground is necessary and will have to cquired. Any suitable waste land in the near vicinity w or this purpose.

2. I consider that the Bellary scheme will prove very atisfactory, in the event of the Madanapalle scheme bein ejected on the grounds of expense. The climate is suit nd the site excellent. So far, the alternative propos or setting up a Tuberculosis Jail at Madanapalle on a mo cale, has not been received from the Superintending Engi adras Circle.

3. The enclosures received with the Government Memorandum No. 3039 C-1 Law (General) dated the 20th May 1924 and No 4217 C-1 Law (General) dated the 30th July 1924 are enclo

I have the honour to be,

Sir,

Your most obedient servant,

Lieut-Col. I.M.S.,
ector-General of Prisons.

Office of the Superintendent, Alipuram

Bellary, dated the 25th July 192

From,

M. S. Snow, Esq., I. S. O.,

Superintendent, Alipuram Jail, Bel

To,

The Inspector-General of Prisons,

O o t a c a m u n d .

Sir,

In continuation of my letter No. J.2295 dated 23-7- I have the honour to forward ~~three~~ three blue prints received from the Assistant Commanding Royal Engineer, Bangalore, in which have been shown the proposals for converting the late Indian Station Hospital into a Jail for tuberculosis prisoners. The proposals are for most part what have previously been decided on, on the lines of t Madanapalle plans. As will be seen from another rough sketch - attached, an allocation of the rooms not required for wards has b attempted to satisfy you that they meet all requirements.

2. In the blue prints are shown in red ink the proposals, and in pencil a few slight alterations suggested. The total accommodat provided is for 160 patients and attendants as under:-

2 wards inside the main building each for 36 patients.
1 open air ward upstairs for patients .. .. ..
2 " " wards outside each for 20 patients .. ..
2 rows of 12 cells each for attendants. .. ..

II. The suggestions now put forward are:-

(1) A Postmortem room to be built. This appears in the Mada palle plans.

(2) Utilizing the bathrooms at both ends of the rear veranda of the main building for the patients treated there and the erect of another alongside the open air wards for 40 patients, i.e., for these men and the 24 treated upstairs. The bathing enclosure ne

attendants. The Medical Officer considers that the - - patients had better bathe under shelter from wind and rain. There is nothing in the Report accompanying the estimate (copy sent for ready reference), or in the plan, to show whether there is to be distribution of water by pipes to the different buildings, or whether the lump provision - - made in connection with the water supply will suffice for the purpose, but this can no doubt be arranged for by savings - if piping and drainage have been overlooked.

(3) Two latrines are shown in the Report accompanying the estimate as to be provided for patients, but the accommodation, Viz. for 54 seems excessive. It is considered that these had better be as indicated in red ink, and in pencil on the blue print at opposite corners of the land surrounding the main building, i.e. one with a common dividing wall for 64 patients and 24 attendants - each to have a separate entrance, and the other for 72 patients. In the proportion of 1 seat to 7 attendants and double this allowance for patients, the number of seats need not exceed 42 asfollows:-

N.E. Corner One latrine with 18 seats for patients.

S.W. Corner One latrine with 20 seats for patients and 4 seats for attendants.

(4) Two single chamber incinerators (one near each latrine), are suggested instead of the only double chamber one proposed in the Report accompanying the estimate.

(5) The latrine for warders and their families may contain two more seats to make 8 (3 + 5), with a common dividing wall and separate entrances for males and females. The number of warders proposed to be employed, Viz. 12, may have to be raised to provide for sickness, leave and - - casualties, unless it is the intention to depute extra men temporarily from the Alipuram Jail to supply vacancies.

(6) A single chamber incinerator for the subordinate

Madanapalle plan.

III. The Madanapalle plan has a workshop and store-room also. Probably this is not now considered necessary, as gardening and farming operations in the open air are to be pursued. The few tools and implements needed can be conveniently arranged to be stored in the Lumber room.

IV. The Report accompanying the estimate shows that two Jailor are to be employed. A Jailor and a clerk are probably meant.

V. Subject to the foregoing suggestions, and with the excepti of a Burial ground for which further land has to be purchased, t land building covered by the proposals are considered sufficient. The plan received with your End. No.5687 dated the 31st May 1924 does not show the whole of what is to be taken up. The red ink dots have been inserted to follow the blue print concerned. Only 15.11 acres with buildings and 5.51 acres without buildings are needed to provide for everything but the burial ground out of the 120 acres referred to in the Bangalore Brigade Commanding Officer letter dated the 5th May 1924 as available for purchase. The 5. acres including the well and bathing enclosure have in any case t be added to the plan received under End.No. 5687 dated the 31st M 1924. But with regard to the other plot, it should be pointed o that the whole of the Wellesly Line huts has been included agreea to the value, Rs. 56760. proposed as to be paid to the Military Department: ~~section~~ See para 17 of the Report accompanying the estima If the additional piece is not wanted, the valuation will have to reduced accordingly.

VI. The file of correspondence received with Proceedings No.115 dated the 21st November 1923 is herewith returned.

I have the honour to be,
Sir,
Your most obedient servant,

Superintendent.

Report to accompany the approximate estimate for converting the Indian Station Hospital into a Tuberculosis Jail at Bellary.

Amount of estimate Rs. 210000/-

Government in Memorandum No. 5274-C/1, dated the 23rd Novem 1923, Law-General- requested the Inspector-General of Prisons to work out the scheme fortne establishment of a Tuberculosis Jail Bellary instead of that proposed at Arogyavaram in Madanapalli, and hence this approximate has been prepared in consultation with the Superintendent, Alipuram Jail, Bellary for converting the - Indian Station Hospital and some of its out buildings into a tub culosis Jail, making provision for an additional subsidiary buil ings.

The Station Hospital and its out buildings, belong to the Military Department and are at present vacant. It is situated in open ground far away from the busy centre of Bellary and Cowal--Bazaar and is from a sanitary point of view well suited for Tuber-culosis Hospital. The main building is in good condition requiri only petty repairs.

The buildings constituting the Jail proper will be enclosed by a double line of barbed wire fencing similar to that erected round the Alipuram Jail to enclose the Mappilla prisoners. The existing compund wall with its small buildings will be completely demolishe and cleared away. Quarters for warders, Jailers and Sub.Assistant Surgeons are provided for by improving the existing buildings out-side the enclosure. The key map herewith enclosed indicates the positions of the various buildings proposed to be improved and - - constructed newly. The design of the new buildings is similar to those proposed to be constructed forthe Tuberculosis Jail at Arogy avaram near Madanapalle.

The estimate provides for the following:-

1. Administration Block

(a) The old hospital buildings will be thoroughly repaired,

doors and windows removed and open archways for the front and rea verandahs provided with iron grating. The two large openings on the sides of the building will be provided with iron grated gates to give access into the building. A lump provision of Rs. 5000/- made for forming consulting room, Assistant Surgeons room, retiri room for the Surgeon on night duty, Laboratory, Dark room, Medica record room for storing medical records of individual cases, dispe sary, and woollen store room as may be required by the Superint e

(b) The terrace portion over the central block will be converted into an open air ward, and a wooden staircase provided to give ac to it.

2. The two inpatient wards of 20 beds each will be constructed front of the administration block as per design M.D.P. No.109/20. Sheet.1.

3. The cellular wards each for 12 prisoners will be constructed rear, as per design M.D.P. No. 110/20 based on C.A. No. 207 of 19 approved in G.O.No. 1841, dated the 7th October 1915.

4. One fly-proof kitchen as per design S.D. 111 No. 42-A of 20 42 of 1920.

5. One grain shed as per design M.D.P. No. 115/20 based on type design No. 176 issued with San: Pro: B.406/S dated 10-9-1919.

6. One fly-proof latrine with 14 seats, as per design M.D.P. No 194 of 20 and another latrine of 40 seats as per design M.D.P.No. 195/20.

7. Two blocks of bathing enclosure as per design M.D.P. 113/20

8. One Dhobies ghat for 3 tanks with an ironing room as per des M.D.P.No. 112/20.

9. One incinerator similar to the one existing in the Alipuram .

10. Extending and improving the armourer's shops Nos. 1,& 2 of Wellesley Lines into quarters for two Sub.Assistant Surgeons.

11. Quarters for Jailers. Improving the front blocks of Welle

Lines

Lines into quarters for two Jailors.

12. Quarters for warders:- converting the two blocks of Wellesl Lines into quarters for 6 warders each. Constructing a latrine of 6 seats (each) for the warders.

13. Constructing a latrine of 4 seats for the use of the Jailors and Sub.Assistant Surgeons.

14. Dismantling the existing compound wall and providing a doubl line of barbed wire fencing similar to the one existing round the Alipuram Jail. Dismantling the existing old buildings in the co pound of the main building and in front of Armourer's shops.

15. Providing electric lighting round the fencing and in the bu dings. L.S. Provision.

16. Providing water supply with electric pump and dynamo L.S. P vision.

Water may either be had by improving the well within the co pound or by connection with the Alipuram Water Supply Scheme now under execution.

17. Provision of Rs. 56760/- has been made on account of compe tion to the Military Authorities for acquiring the land and exis buildings, as per statement prepared by the Tahsildar.

18. A lump provision of Rs. 6350/- has been made to meet the e penditure on unforeseen items additional works such as operation theatre etc., found necessary, fluctuations in market price etc.

All the new buildings will be built of stone masonry as go bricks are not available locally. The stones fot from the comp wall are proposed to be used for the improvements of the quarter for warders, Jailors and Sub.Assistant Surgeons. The rates ado are mainly those sanctioned and worked out recently in Town Work section. For new items, actual data based on the current schedu of rates have been furnished. For items for which rates are not available, the rates allowed in the estimate for Madanapalle Tub culosis Jail have been adopted.

The foundations for the new buildings are the same as those provided for the designs in the Madanapalle Scheme, as it has been found, from an examination of the trial pits, in the compound the hard white gravel is met with at a depth varying from 2'-6" to - 1'-6" below the ground level, exactly similar to the results of trial pits excavated for the Madanapalle Scheme.

Sd. N. Keshava Rao.

Executive Engineer, Bellary.

Jails---Indian Hospital, Bellary---conversion into a Tuberculosis Jail---lands and buildings to be acquired from the Military Dept. plans and estimates submitted.

No. G/ 726

Station Ootacamund. , *Dated the* 5th September 1924. 191

From (Name) Lieut-Col. G.W. Maconachie, I.M.S.,

(Designation) Inspector-General of Prisons.

To The Secretary to the Government of Madras,

Law (General) Department

Sir,

With reference to Government Memorandum No. 4516 C-1 Law (General) dated the 18th August 1924, I have the honour to return herewith the plan ~~xxxxxxxxxxx~~ after marking thereon the lands and buildings required for a Tuberculosis Jail at Bellary, including the site for a burial ground. The site for the burial ground is 400 yards away from the proposed Jail buildings and not less than 100 yards from any of the wells shown on the plan.

2. The plans and estimates relating to the conversion of the Indian station hospital buildings into a Tuberculosis Jail, are herewith resubmitted. The buildings can provide accommodation for 160 beds Vide copy of letter No. 1485/M dated the 28th August 1924 from the Superintending Engineer

Madras Circle.

3. An alternative proposal for setting up a Tuberculosis Jail at Madanapalle on a modest scale, is still awaited from the Public Works Department. The necessary particulars required in connection with the preparation of a revised estimate, have already been furnished to the -- Superintending Engineer, Madras Circle, and a reminder letter has also been sent on the 23rd August 1924 to -- expedite the proposal.

I have the honour to be,

Sir,

Your most obedient servant,

Lieut-Col. I.M.S.,
Acting Inspector-General of Prisons.

Copy of letter No. 1485/M, dated the 28th August 1924 from the Superintending Engineer, Madras Circle, Madras to the Inspector-General of Prisons, Ootacamund.

.....

Tuberculosis Jail---conversion of Indian Station Hospital buildings at Bellary.

.....

With reference to your No. 5417, dated the 27th May 1924 and 6550, dated the 24th June 1924 and in continuation of this office No. 1345/G, dated the 9th July 1924 I have the honour to inform you that the covered wings of the existing main buildings will have 72 beds (i.e) 36 in each wing and 24 beds on the terrace of the Central block by converting it into an open air ward. In addition to the above two inpatient wards of 20 beds in each will be constructed in front of the administration block and two - cellular wards with 12 beds in each in rear of the same.

On the whole the accommodation that can be provided in the proposed tuberculosis Jail at Bellary will be for 160 beds.

The plans and estimates received from you are herewith returned as desired, together with a new plan showing the arrangements of beds in the existing Hospital.

To

The General Officer Commanding,

Wellington.

[with plan on p 65 c/f]

Sir,

Military buildings - Bellary - Conversion of the Indian Station Hospital buildings into a tuberculosis jail - Correspondence ending with my letter No. 4679C-1 dated 26-8-1924.

I am directed to return the plan received with your letter No. 2046/16/Q dated 24-7-1924. The buildings and land that will be required, in case it is decided to set up the Tuberculosis jail at Bellary, are marked therein. The Coln of Bellary has been asked to value the military buildings required for the purpose and, on receipt of this reply, negotiations will be opened with the Govt of India for their purchase. There

Jails - Tuberculosis - conversion the Indian Station Hospital buildings Bellary - correspondence ending the letter No. G.736 dated 5-9-1924.

In view of the present financial conditions it is proposed to restrict the expenditure on the conversion of the Indian Station Hospital buildings at Bellary to one lakh of rupees approximately exclusive of the value of the military buildings. The I.G. of Prisons is requested to consider

and report on the possibility of reducing the estimate for the work to the above amount, The plans and estimates are returned for revision and resubmission.

2. In revising the estimate the I.G. of Prisons is ~~also~~ requested to consider the suggestions made by the Superintendent, Alipuram jail in para. II of his letter No. J.2340 dated 25-7-19

3. The I.G. of Prisons is also requested to report the minimum establishment required for the proposed Tuberculosis jail at Bellary, with a detailed estimate of expenditure both recurring and non-recurring that is likely to be incurred during 1925-26.

To the I.G. of Prisons.

+. The reference should be treated as very urgent a report submitted before the 10th of October so that the scheme may be considered in time for the budget of 1925-6

No. G. 863

Station Ootacamund. , *Dated the* 7th October 1

From (Name) Lieut. Col. G.W.Maconachie, M.B., I.M.

(Designation) Inspector General of Prisons,

To The Secretary to the Government of Madras,

LAW(GENERAL) Departm

1165 a

Sir,

With reference to Government memo No. 4516 C-4 La (General) dated the 17th September 1924, I have the honour to forward herewith a copy of letter No. J. 3128 dated the 2nd October 1924 from the Superintendent, Alipuram Jail together with a statement showing recurri and non-recurring expenditure on account of the opening a Tuberculosis Jail at Bellary. Excluding the value of the land and buildings proposed to be paid to the Militar authorities, the amount of the estimate has been reduced to Rs. 1,22,790/- by eliminating some of the items. As saving of 20 % can be expected on account of employment of convict labour and execution of the work by the

1165-7 Jan 25

71 infra

eliminated are indispensable, and it is considered necessary that provision for them should be made in the budget for 1926-27.

2. The non-recurring charges of Rs. 9068/- are inevitable for the hospital equipment. As regards the Recurring charges only the minimum establishment required has been provided for. The other contingent charges, it would appear, will be the same wherever the prisoners are and should not therefore be taken into account.

I have the honour to be,

Sir,

Your most obedient servant,

Lieut. Col. I.M.S.,
Ag. Inspector General of Prisons.

Copy of letter No. J. 3128 dated the 2nd October 1924, from the Superintendent, Alipuram Jail, Bellary, to the Inspector General of Prisons.

With reference to your endorsement No. 9712, dated the 20th September 1924, I have the honour to make the following recommendations, though it seems to me a pity that the entire proposals cannot be given effect to in the first instance owing to the present financial conditions:-

1)	Omit part of item 2 in the estimate relating to iron gratings and gateways.	Rs.15,000
2)	Omit items 3 and 5	7000
3)	Omit 6 cells from item 6 by reducing the number to 18	5800
4)	Reduce size of one bathing enclosure.	1500
5)	Reduce the number of seats in the latrines from 54 to 42 minus (7 1) or 34.	2300
6)	Reduce item 20 proportionately.	2350
	Total Reductions.	33950

also be dispensed with, as there must always be an element of risk in the matter of escapes. Without the ratings it will become necessary to secure the belchains at night patients other than those in bad case, who may be excused by the Medical Officer. The healthy orderlies and attendants will ofcourse sleep in cells, but there must be occasions on which they will be required in the wards to nurse patients nightly and they cannot be secured in the same way. The barbed wire fencing will have a main entrance with double iron gates, outside which a small guard room is recommended, and a provision of Rs.1500/- is now made on this account.

II. By the addition of -

1)	A post mortem room	Rs. 1000
2)	A fuel room	600
3)	A single chamber incinerator.	300

agreeably to the suggestions in this office letter No. J. 2340 dated the 25th July 1924 and of Rs. 1500/- as now recommended for a Guard Room the saving of Rs.33950 will become reduced to Rs. 30450/-. The reduction in the Bathing and Latrine accomodation has been allowed for in Clauses 3 and 5 of para No. 1. above. When Rs.30450 and Rs. 56760/- are excluded from the total amount of the estimate for Rs. 210000 there remains a balance of Rs. 122790 of which atleast 20 per cent can be saved by the execution of the work by the Superintendent in the capacity of a Public Works Disburser. So it might be well to provide one lakh in the Budget for 1925-26 besides the compensation.

III. The Executive Engineer has been consulted and the abstract estimate and report herewith returned have been revised as instructed by him. The file received from Head Office does not contain all the plans.

I am informed by the Assistant Engineer that item 19 in the estimate viz. for Rs. 3000 on account of the water supply, provides for drains and pipings also. The

electric dynamo may or may not be needed but the item may, it is submitted, remain unaltered as to the amoun as additional 6" pipes would be required in case water is to be laid on from the Alipuram Tank.

IV. It is understood that additional funds will be provided in the Budget for 1926-27 to restore the items eliminated from the original proposals.

V. A statement of the recurring and non-recurring charges is attached. The figures are only approximate.

Report to accompany the approximate estimate for converting the Indian Station Hospital into a Tuberculosis Jail at Bellary.

;.....

Amount of estimate: 210000/-

Government in Memo No. 5274-C/1, dated the 23rd November 1923, Law (General) requested the Inspector-General of Prisons to work out the scheme for the establishment of a tuberculosis Jail at Bellary instead of that proposed at Arogyavaram in Madanapalli, and hence this approximate estimate has been prepared in consultation with the Superintendent, Alipuram Jail, Bellary, for converting the Indian Station Hospital and some of its out buildings into a Tuberculosis Jail, making provision for additional subsidiary buildings.

The station hospital and its out buildings belong to the Military Department and are at present vacant. It is situated in open ground far away from the busy centre of Bellary and Cowl Bazaar, and is from a sanitary point of view well suited for Tuberculosis Hospital. The main building is in good condition requiring only petty repairs. These are proposed to be done out of the allotment first provided.

The buildings constituting the Jail proper will be enclosed by a double line of barbed wire fencing similar to that erected round the Alipuram Jail to enclose the Mappilla prisoners. The existing compound wall with its small buildings will be completely demolished and cleared away. Quarters for warders, Jailors and Sub Assistant Surgeon are provided for by improving the existing buildings outside the enclosure. The key map herewith enclosed indicates the positions of the various buildings proposed to be improved and constructed newly. The design of the new buildings is similar to those proposed to be constructed for the Tuberculosis Jail at Arogyavaram near Madanapalli.

The estimate provides for the following:-

1. Administration Block.

(a) The old hospital building will be thoroughly repaired. The doors and windows were to be removed and open archways for the front and rear verandahs provided with iron grating. But this has to be left over to be done at a future time. The two large openings on t

the sides of the building were to be provided with iron grated gateways to give access into the building. But this will also have to stand over. A lump sum provision of Rs. 5000/- is made for forming a consulting room, Assistant Surgeons Room, retiring room for the Surgeon on night duty, Laboratory, Dark Room, - - Medical Record Room for storing medical records of individual cases, dispensary and woollen store room, as may be required by the Superintendent.

(b) The terrace portion over the central block were to be converted into an open air ward, and a wooden staircase provide to give access to it, but this has also to stand over.

2. The two inpatient wards of 20 beds each will be constructed in front of administration block as per design M.D.P. No. 109/20 Sheet-1

3. Two cellular blocks as per design M.D.P. No. 110/20 based on C.A. No. 207 of 1914 approved in G.O.No.1841/7-10-1915 but they will be for 9 prisoners each instead of 12 each, as originally proposed.

4. One fly-proof kitchen as per design S.D.III No. 42-A of 20 and 42 of 1920.

5. One grain shed as per design M.D.P. No.115/20 based on type design No. 176 issued with San:Pro: B.406/S dated the 10th September 1919.

6. One fly proof latrine with 14 seats, as per design M.D. No.194/20 and another latrine of 40 seats as per design M.D.P. 195/20 were to be provided, but the number of seats has been altered to 18 and 16 respectively.

7. Two blocks of bathing enclosure as per design M.D.P.113 but one is to be reduced in size.

8. One Dhobies ghat for three tanks with an ironing room a design M.D.P. No.112/20.

9. One incinerator similar to the one existing in the Alipuram

10. Extending and improving the armourer's shops Nos.1 and 2 of Wellesly Lines into quarters for two sus assistant surgeons.

11. Quarters for Jailors. Improving the front blocks of Wellesly Lines into quarters for two Jailors.

12. Quarters for warders. Converting the two blocks of - Wellesly Lines into quarters for 6 warders each. Constructing a latrine of 6 seats for the warders.

13. Constructing alatrine of 4 seats for the use of the Jailor and Sub Assistant Surgeons.

14. Dismantling the existing compound wall and providing a doul line of barbed wire fencing similar to the one existing round the Alipuram Jail. Dismantling the existing old buildings in the compound of the main building and in front of Armourer's shops.

15. Providing electric lighting round the fencing and in the buildings L.S. Provision.

16. Providing water supply with electric pump and dynamo L.S. Provision.

Water may either be had by improving the well within the compound or by connection with the Alipuram Water Supply Scheme now under execution.

17. Provision of Rs. 56760/- has been made on account of compensation to the Military authorities for acquiring the land and existing buildings, as per statement prepared by the Tahsildar.

18. A lump sum provision of Rs. 4000/- has been made to meet the expenditure of unforeseen items additional works such as operation theatre etc., found necessary, fluctuations in market price etc, against Rs. 6350 originally shown.

19. A Postmortem room, Fuel Room, an extra single chamber incinerator and a Guard Room are to be built at a cost of Rs. 3500/-.

All the new buildings will be built of stone masonry as good bricks are not available locally. The stones fit from the compound

wall are proposed to be used for the improvements of the quarters for warders, Jailers, and Sub Assistant Surgeons. The rates adopted are mainly those sanctioned and worked out recently in Town Works section. For new items, actual data based on the current schedule of rates have been furnished. For items for which rates are not available, the rates allowed in the estimate for Madanapalli Tuberculosis Jail have been adopted.

The foundations for the new buildings are the same as those provided for the designs in the Madanapalli scheme, as it has been found, from an examination of the trial pits, in the compound that hard white gravel is met with at a depth varying from 2'-6" to 1'-6" below the ground level, exactly similar to the results of trial pits excavated for the Madanapalli Scheme.

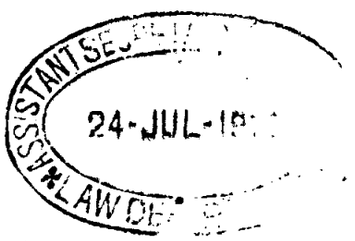
Jails - Indian Station Hospital buildings - conversion into Tuberculosis Jail.



No. G. 498

Station Ootacamund , *Dated the* 23rd July 1925. 192 .

From (Name) Lieut-Col J.P.Cameron C.I.E., I.M.S.,

(Designation) Inspector-General of Prisons.

To The Secretary to the Government of Madras,

Law (General) Department.

Sir.

With reference to Government Memorandum No. 5245-C-24 dated the 1st June 1925, I have the honour to state that th Tubercular annexes in the Central Jails Bellary and Trichinopoly have become overcrowded, and, for want of accommodation transfers of consumptive prisoners from other jails are being suspended. There are at present over 100 prisoners suffering from this disease, confined in the jails of this Presidency and the accommodation provided in the above two annexes is for 50 only. In this connection, I enclose herewith the remarks of the Collector of Bellary in the Visitors' Book of the Alipuram Jail for the information of Government.

2. As it has already been decided by Government, to acquire the Indian Station Hospital

and convert it into a Special Tuberculosis Jail, it is considered essential, in the circumstances brought to notice, that the scheme should be put in hand at once and completed as early as possible. Though the work of reconstruction has been postponed in the Government Memo referred to above to next year, presumably owing to paucity of funds, it is most necessary for suitable arrangements to be made for housing, segregating and treating the active cases of Pulmonary tuberculosis now in custody. As an emergency scheme, therefore, I propose that arrangements be made to take over the Indian Station Hospital buildings and utilize them, such as they are, with a few necessary additions and improvements, before the end of this year, and am forwarding herewith for the consideration of Government the plans and estimate, the latter amounting to Rs. 10,300/-, for this scheme. If my proposal is accepted I can complete the work departmentally and be in the position to transfer 100 tubercular patients to the new jail before the end of the year, if sanction is obtained.

I request that the Government will be pleased to consider the emergency proposal now put forward, and sanction the allotment of Rs. 10300/- from the sum of Rs.1,00,000/- allotted for the original scheme during 1925-26, and resumed by Government in G.O.No. 364 Routine, Finance, dated the 26th May 1925. It is also requested that the Military authorities be addressed and asked to hand over the buildings at an early date. As the question of acquiring the Indian Station Hospital buildings is settled, it is presumed that no rent will be charged by the Military Department and that an arrangement can be come to whereby payment for the buildings can be made next year in the event of funds not being

Extracts from the Official Visitors' Book of the Alipuram Jail, Bellary dated the 11th June 1925.

Observations and recommendation of the Official visitor.

I do hope something can be done at a very early date to provide a separate jail for consumptive convicts. The number in the Alipuram Jail is increasing and the Bellary Central Jail has already a larger population of consumptives than is consistent with adequate treatment. Here the consumptives cannot be properly segregated. The old Indian Station Hospital, though possibly not an ideal place for a consumptive Jail, is certainly in many respects quite suitable and could very easily be adapted.

A.C.Duff
Collector of Bellary.

(Designation) Inspector-General of Prisons.

To The Secretary to the Government of Madras,
Law (General) Department

Sir,

I have the honour to state that the plan and estimate for the construction of six condemned cells in the Central Jail, Trichinopoly have not yet been received from the Superintending Engineer, Trichinopoly Division. Even if they are received now it is not likely that the work can be undertaken and completed during the current year, in addition to the work of constructing quarantine cells now being carried on in that Jail. The amount sanctioned for this work Viz., Rs. 8,500, can therefore be surrendered for reappropriation to the work of carrying out alterations to the Indian Station hospital buildings referred to in Government Memorandum No. 4024 G--1 Law (General) dated the 10th August 1925. The balance of

of Rs. 1,800 required for the above work can be found later on when the grant of Rs. 8,500 is fully expended. This work will be undertaken by the Superintendent, Alipuram Jail as a public works disburser.

2. It is requested that a like sum Viz., Rs. 8,500 may be allotted during the year 1926--27 for the work of constructing the 6 condemned cells in the Central Jail, Trichinopoly, the plan and estimate for which will be duly forwarded on receipt from the Public works

Law (Genl)

Subject Construction of a tuberculosis Jail at Arogyavaram Madanapalle. Rs 4,62,000 [£25,000]

The necessity for a special tuberculosis Jail at Madanapalle has been explained by Major Cowen in his no. reply dy 11-2-21 on pp 7-8 of note b. No 610 Law (Genl) dy 18-6-21. He there points out the importance of the provision of a sanatorium Jail for the efficient segregation and treatment of all positive cases of ~~the least~~ tuberculosis, not only in their own interests, but in the interests of the healthy. The total cost of the estimate originally submitted by the I.G. came to Rs 4,62,000. Pending receipt of the orders of the Govt. of India on connected questions such as those relating to classification and segregation of prisoners, principle of Jail Construction etc, the sanction was deferred. In September 1922, the I.G. sent the same estimates as those already submitted to the Govt. for consideration of provision of funds. But in G.O.

(II) (H)

o. 1896 dated Gen) of the 8-8-1922 the
above estimates were returned to the
P.G. vide Proc. to request him to
indicate the items available. The P.W.D
in their Part II scheme - Major
works, included the scheme of
tuberculosis jail etc in which
there is entered a sum of Rs. 25,000
as demand for 1924-25 out of the
total estimate of Rs. 1,62,000.
The P.G. considers that work is
equally urgent and important as
the other Jail works in his opinion
should be provided during 1924-25. Steps for
ensuring whether the Finance
may be requested to consider the question
provide funds required during 1924-25. That file may be
sent to Finance dept. as Finance
will no doubt advise whether
the scheme may be placed
before the Finance
Committee

Please see the Jail in ~~memorandum~~ on pp 3-4 on

Addl. memo to the I-G of Prisons is submitted.

2 In para 2 of the I-G's letter dy 28-8-1919, it is stated that to begin with, accommodation would need be made for 160 prisoners in the tuberculosis Jail. The no. of prisoners should have increased by this time. As regards the employment of Jail labour, Col. Cameron himself stated in para 5 of his letter dy 9-7-1920 that with regard to reducing the estimate [provi-]ding the necessary labour, he is opposed to consider the opening of any Jail at Madanapalle, so that convicts may be employed for building the special Jail. But it is not

stated how the employment of the Jail labour will reduce the total estimate

The draft memo. to the D.G. covers these points also

From the D.G. of Prisons G No. 840 dt 9.11.23.
Telegram from the D.G. of Prisons G No. 855 dt 12.11.23.

A.S.

Please see Finance department's notes on pp 3-4 ante. The information required by them is given below:—

(1) the proposed tuberculosis jail at Madanapalle is roughly estimated by the Superintending Engineer to cost Rs 4,50,000/-. The rough estimate under Scrutiny by the Superintending Engr

(2) the proposed jail is to accommodate not less than 160 prisoners.

(3) the annual recurring expenditure will be approximately Rs 15,000/-.

(4) It is proposed to utilize Convict labour in the Construction of the jail and the entire

saving on account of this is estimated at Rs 10,000/.

2. The D.G. seems to think that, if it is not possible to start and complete the work within two or three years, it will be necessary to give up the Madanapalle Scheme and take up a less costly one. He says that there is no use of waiting on the expectation that the present financial stringency will be relaxed in due course and suggests that it would be better to give up the Scheme once for all if there is no prospect of funds being available within a reasonable time. - - - - - -

3. He accordingly suggests, as an alternative, for the consideration of govt., the possibility of converting the Indian Station Hospital at a Bellary into a tuberculosis jail. He reports that the buildings are not at present required by the Military authorities and that they can be obtained either on rent or by purchase. Though the climate and other conditions at Bellary may not stand comparison with those at Madanapalle - which are ideal in every way, the D.G. seems to think that, in course of time, we could make the Bellary Scheme a tolerably successful one. He has not given us any idea as to the cost of the Bellary Scheme, but says that

As Compared with Madanapalle it would be very much less. If desired, he also promises to investigate the Scheme in detail and to report with rough plans and estimates.

4. If funds can be found to start the work next year and to finish it within two or three years, there seems to be no need to give up the Madanapalle Scheme. On the other hand, if no funds are available to take up Sneha Postly Scheme at present, the D.H. may have to be asked ~~in the end~~ to investigate and to report on the Bellary Scheme. ~~In any Case Some provision will have to be made for the temporary in the next year's budget. Finance may be asked to advise if they Case~~

For order.

Sd
19.11.23.
19.11.23.

Col Cameron was kind enough to discuss this matter with me. Madanapalle the best place for tuberculosis cases. If he thinks of any other alternative, it is because he despairs of getting a start there. As the next best thing, he thinks of Bellary. I cannot help thinking that even this alternative is suggested mainly in the interests of economy as some building is available there & also jail staff.

R. 20-11-23.
Box No. C-S-23
Returned 22-11-23

So instead of starting with what after all would not be an efficient substitute, I would consider if it be not possible to start at Madanapalle itself but with a much less ambitious scope. Begin with earthen floors and thatch sheds; have barbed wire instead of walls. Have only a purveyor & a Dy Jailor. Make a grant to the mission for medical help. Even if some of the tuberculous people break bounds, I would not mind as the terror of arrest will always hang over them; & as cures in course of time will induce patients to remain. I would recommend that the I.G. be called on to examine if a scheme on these lines is feasible.

201

C2 I do not know that earthen floors and thatch sheds are at all desirable for accommodating persons suffering from a disease like Tuberculosis. The I.G. may be asked to work out as quickly as possible a scheme for Bellary and also to offer his remarks on the alternative proposal that instead of taking up the Bellary buildings a Tubercular Jail on a much mor modest scale than at present contemplated, but capabl of extension, should be set up at Madanapalle.

C.No.5038C. From the I.G. of Prisons No. G.736 dated 5-9-1924.

A.S.

The I.G.of Prisons has returned the plan after marking therein the military buildings and lands requi for the conversion of the Indian Station hospital buil ings at Bellary into a Tuberculosis jail. The plan ms now be returned to the G.O.C., Wellington.

2. The plans and estimates for the conversion of Indian Station Hospital buildings into a Tuberculosis jail since received back from the I.G. are placed belo Exclusive of the value of the military buildings, the scheme is estimated to cost Rs. 1,53,240. The various items of ~~the~~ expenditure (of which this amount is composed) ~~is~~ are given below:-

	Rs.	As
1. Dismantling the existing compound wall and providing a barbed wire fencing	8,600	0
2. Providing iron gratings to the archways of verandah and repairs to the buildings	23,500	0
3. Providing an open air ward on the first floor	5,500	0
4. Providing and fitting up a wooden stair case to the open air ward	1,500	0
5. Construction of two in-patient wards of 20 beds each	30,000	0
6. Two cellular wards each for 12 prisoners	23,200	0
7. Construction of a fly proof kitchen	15,580	0
8. Construction of a grain shed ...	4,040	0
9. Construction of a fly proof latrine with 14 seats and the other of 40 seats for the Tuberculosis Jail Patients. ...	6,170	0
10. Construction of two blocks of bathing enclosures	3,550	0
11. Construction of a Dhoby's ghat ...	1,350	0
12. Construction of an incinerator ...	400	0
13. Extending and improving the armourers shop 1. and 2 into quarters for 2 sub-assistant surgeons	4,400	(
14. Improving the front blocks of Wellesley lines for quarters for jailers	2,000	(

	Rs.	As.	P.
15. Converting two blocks of the existing Wellesley lines into Qrs for 6 warders each.	7,500	0	0
16. Construction of a latrine of 4 seats for the quarters of Assistant surgeons and jailers ...	300	0	0
17. Electric lighting	6,000	0	0
18. Water supply arrangements	3,000	0	0
19. Dismantling of certain existing buildings	300	0	0
20. Sundry for unforeseen items	6,350	0	0
	1,53,240	0	0

Please see paragraph 5 of Secretary's note on age 20 ante wherein he has noted that the expenditure for the onversion of the Station hospital buildings (exclusive of f the value of the buildings) may be restricted to Rs. lakh for the present. The I.G. may be asked whether the stimates can be reduced to the above amount. The plans nd estimates may also be returned to him for revision and esubmission. In paragraph II of his letter on pages 48-49 .f. the Superintendent, Alipuram jail makes certain addiional suggestions and alterations in respect of the conersion of the Indian Station Hospital buildings; but the .G. has not offered any remarks on these suggestions. In evising the estimates the I.G. may also be asked to conider these suggestions.

3. The I.G. has not given us any idea as to the estaishment that will be required for running the tuberculosis il. It will, however, be seen from the report accompanying e estimate that 2 sub-assistant surgeons, 2 jailers and warders are intended to be provided with quarters. Since e tuberculosis jail is intended to be an annexe to the ipuram jail, two sub-assistant surgeons and 2 jailers em unnecessary. The Superintendent himself has stated hat one sub-assistant is sufficient and that the quarters r the 2 jailers provided in the estimate are probably ant for one jailer and one clerk. The I.G. may be asked report the minimum establishment that will be required.

3. The I.G. may also be requested to prepare and mit a detailed estimate of expenditure both recurri non-recurring that is likely to be incurred in 1925 for the tuberculosis jail proposed to be set up at so that necessary steps may be taken to provide for amount in the next year's budget

4. Negotiations may be opened with the Govt. India for the purchase of the military build after on the receipt of the valuation Statement (for from the Collector of Bellary.

Draft letter to the G.O.C Wellington and draft om. to the I.G. of Prisons are enclosed

16.9.24.

16.9.24

17.9

Please see the Government memo. dated 17 and the I.G's reply thereon on pages 65-68 CF.

2. As desired by Government in para. 1 of the draft the amount of the estimate for the construction building has been reduced from Rs. 1,53,240 to Rs. 1,22,790. But if we take into account the saving of 20 % due to employment of convict labour into account and ex of the work by the Superintendent as Public Work burser, a provision of 1 lakh of rupees only will be required during 1925-26. The I.G. however points out that items proposed for e mination are necessary and provision should be made f them in the budget for 1926-27. The revised estimate is at pages 72-73 CF.

~~3. With regard to para. 2 of the Memo. the I.G has not offered any remarks. It is for consideration whet he should be pressed for them again.~~

3. In the statement on page 71 C.F. the I.G.

gives figures ~~for~~ relating to the recurring and non-recurring charges for the proposed jail. It is stated that only the minimum establishment has been provided for. 1-68 CF

4. The following ~~provision~~ provision exclusive of the value of the military building will have ~~therefore~~ to be made during 1925-26 :—

Construction of buildings	....	Rs. 1,00,000
Charges.-		
Recurring	....	36,730
Non-recurring	....	9,068

1-69 CF

1-71 CF

~~5. The file may now be sent to Finance for consideration of the question of funds during 1925-26.~~

5. Please see para 3 of this note on p 17a. It was stated then that the accn proposed was for 160 prisoners. From the revised estimate it appears that accommodation has been reduced to 72+40+18 or 130 prisoners. This point is however not quite clear. Q. Orders whether the D.G. may be asked to say at once the no of prisoners for whom the revised estimates provide accommodation.

14.X.24

ASSISTANT SECRETARY TO GOVT
14 OCT 1924
FINANCE DEPARTMENT

1-68 CF

The file relates to the establishment of a Tuberculosis jail for the segregation of prisoners suffering from tuberculosis. The original proposal was to construct a tuberculosis jail at Madanapalle at an estimated cost of 4.50 lakhs. In view of the excessive cost of the scheme it was given up in favour of a less costly scheme, viz., to take over the Indian Station Hospital and connected buildings at Bellary and to establish a tuberculosis jail there in connection with the Alipuram Jail. The cost of the scheme is estimated as follows:-

Non-recurring

	Rs.
(a) Buildings:	
(i) Estimated cost of military land and buildings to be taken over.	.57 la
(ii) Alterations and additions to existing buildings.	1.00 la
(b) Equipment.	.09 L
	1.66 L
(c) Recurring charges	Rs 36,730 p

The necessity for the scheme was discussed at length in the I.G's note on pages 7-8 of the notes to G.O.No.610 Law (Genl.) dated 18th June 1921. As regards the recurring expenditure, it may be observed that the the total expenditure is stated to be Rs.36,730 the whole of it is not necessarily additional expenditure as the hospital charges which amount to Rs.24,290 will have to be incurred wherever the prisoners will be lodged. The real extra recurring expenditure is, therefore Rs.12,440. Finance may, perhaps, accept the necessity for the scheme, and to its being placed before the Finance Committee as a Part II scheme

3. The charges on account of equipment and
e recurring charges can be incurred only after the build-
gs are completed and the hospital is opened. It
ems, therefore, unnecessary to provide in the next
ar's budget any amount for these items.

4. Buildings: As regards payment for the
litary land and buildings, the position is that the
vernment of India have been addressed in regard to
e right of the local Govt. to resume lands and build
the Government of India which are not required for
eir purposes. Whether payment should be made for
e Indian Station Hospital buildings and the site
ll depend on the final orders of the Secretary of
ate on the question. The site is valued at Rs.3,60
d the book value of the buildings is Rs.44,486 makir
total of Rs.48,086, but the present market value is
timated by the Tahsildar at Rs.56,760.

5. As regards the alterations and additions to
e buildings, the P.W.D. have estimated the cost at
. 1,22,790 - vide abstract estimate on pp.72-73 C.F.
ie I.G.of Prisons considers that a saving of Rs.22,7
n be effected by the employment of convict labour
d by the work being undertaken by the Superintenden
the Jail as a Public Works Disburser. The presen
timate excludes certain items included in the original
timate - flag (B) which amount to Rs.33,950. The
G.of Prisons considers that these items are necessary
should be provided for in the budget estimate for
26-27. No promise can be made as to whether funds
be found for them during that year. The details
the estimates on pages 72-73 C.F. do not call for
marks.

The Law Department may be requested to prepar the note for the Finance Committee for a provision of 1 lakh in the budget estimates for 1925-26 for the additions and alterations to the Indian Statio Hospital buildings. Bellary. With reference to paragraph 5 of G.O.No.12 W dated 4-1-1923 the Law Department may be informed that it is not likely that provision will be made in the budget unless it is a Class I work.

(Copies of the note for the Finance Committee despatched on 28-11-24)

Note for the Finance Committee.

Establishment of a tuberculosis jail at Bellary - Alterations to the Indian Station Hospital buildings.

Proposal of the Inspector-General of Prisons.

In paragraph 320 of their report the Indian ails Committee have recommended that in every prov ther a special jail or specially constructed ward; selected centres should be provided for the acco dation of such cases of tubercle as are fit for moval and that a separate ward should be provided every District and Central jail for advanced case present there are special wards for the segregati l treatment of tuberculous prisoners in the Central ls at Trichinopoly and Bellary. But the accommoda these wards, viz:, 24 beds is quite inadequate. Tub losis is on the increase in the Madras jails. The ber of patients admitted has risen from 125 in 19 223 in 1923. It is inadvisable to concentrate tu losis prisoners in ordinary jails owing to the g sk of infection. The I.G. considers that their co te segregation in a special jail is of vital impo ce. He accordingly proposes the setting up of a tuberculosis jail in the Station Hospital buildings Bellary and applies for a provision of one lakh of rupees in the budget estimate for 1925-26 for carryi out the necessary alterations to the buildings.

Note by the Administrative Department.

The original proposal was to construct a tuber- ulosis jail at Madanapalle at an approximate cost of

our and a Half lakhs of rupees. But on account of he great cost of the scheme it has not been found ossible to provide funds for the work. It is now roposed to give up the Madanapalle scheme in favour less costly one, viz., that of taking over the Inf tation Hospital and connected buildings at Bellary elonging to the Military Department and converting nto a tuberculosis jail.

Note by the Finance Department.

The proposal may be placed before the Finance Committee as a Part II scheme for 1925-26.

R.W.D.
4-11-24.

Tubercular Jail, Bellary

CNo. 6404 CJ

From the Collector of Bellary

No. Dis C 6196/24 dy 10.11.24.

pp78-81/7

U.S.

The Cost of the buildings above required for the tubercular jail, is estimated at Rs 46,650/- by the Executive Engineer Bellary. In arriving at this amount the Executive Engr has taken into account the original Constn Cost of each building deducting therefrom the depreciation charges at ½% per annum since the date of Construction. The amount also includes approximate charges for repair and 15% of the net Cost for Compulsory acquisition. Exclusive of the 15% for Compensation Compulsory acquisition, the value of the buildings is estimated at Rs 40,565/-. In this Case no Compensation for Compulsory acquisition is required and the value may be fixed at Rs 40,565. The value of the land is estimated at Rs 2,110/-.

2. In this Connection it is submitted that the whole question of the title to lands and buildings which have been used by the military dept authority and are being given up is now before the Govt. of India and the Secy of State for orders. Pending a decision on the question we have, in the Case of the Plassey barracks now occupied by the Alipuram Jail, we have

ffered Rs 2 lakhs ~~on account of~~ towards the value
f the buildings alone and have not
mmitted ourselves in any way in regard to the value
f land. Even this offer on account of the
uildings was made on the understanding
hat the value to be paid eventually should
: fixed in accordance with the decision
hat may finally be arrived at on the General
uestion of basis of ~~this~~ State lands between Central and Provincial.
~~In this~~ In the present Case also, the offer may
e made on the value of buildings alone
nd that without prejudice to the final
ecision ~~on the grounds specified~~ ref^d to above
According to the instructions of the Govt
India (Army Department) Contained in their
tter of the 24th August 1923, whenever any
atter affecting the military administrati
under the Consideration of the Local Govt,
ey are required to Consult the General
fficer Commanding and obtain his views
n the matter before the Govt of India is
ddressed. In this Case we have already
ntimated to the G.O.C our probable requirements
n regard to lands and buildings in Case it is
decided to Set up the tuberculosis Unit at
Bellary, and have informed him that, on receipt
of the valuation Statement from the Coll of
Bellary, the Govt of India will be addressed
for the purchase thereof. Under the Circumstances,

Letter 5779 C-1 — 25-1-24 — Mr. 26- ... (CA ... Rly. Secy's ... on ... 29 ... the buildings ... Mr. 25- ... buildings

+ Rs 40-00

Jails – tuberculosis – Indian Station hospital buildings, Bellary.

CR. No. 4024 G. From the Dy. of Prisons. No. G498 dy 23-7-25.

Rs.

As it was thought inadvisable to Concentrate tuberculosis prisoners in ordinary jails owing to the risk of infection, it was decided that a Separate jail should be provided for the Segregation and Confinement of this class of prisoners. The original proposal was to Construct a tuberculosis jail, at Madanapalle at an approximate Cost of 4½ Lakhs of rupees. But on account of the great Cost of the Scheme it was given up in favour of a less Costly Scheme of Setting up of a tuberculosis jail in the Station Hospital buildings at Bellary. The cost of the latter Scheme was estimated at Rs 1,62,075/ as shown below:—

		Rs
Cost of Military ~~land and~~ buildings proposed to be taken over.	}	40,565.
(2) Alterations and additions to the existing buildings	}	1,00,000.
(3) Equipment Charges		9,070.
(4) Recurring Charges for Establishment &c		12,440
		Rs 1,62,075

The latter Scheme was accepted by Govt.

and a provision of Rupees one lakh was also provided in the budget for the Current year for effecting the necessary additions and alterations to the Station Hospital building. It was suggested that no expenditure would be incurred under other items in the Current year and accordingly no provision was made for them. The Govt of India has also been addressed for the purchase of the military buildings and their reply is awaited. In the meanwhile, however, it was decided at a Cabinet meeting held on 5th May 1925 that the Scheme for providing a tuberculosis jail at Bellary should not be proceeded with this year. The amount of Rs 1,00,000/- provided in the budget was accordingly resumed.

p 31 (b) ante.

p 41 ante.

p 42 ante

2. The IG. now brings to notice that the tubercular annexes attached to the Central jails at Trichinopoly and Bellary× have become overcrowded and that for want of accommodation transfers of consumptive prisoners from other jails are being suspended. He says that there are at present over 100 prisoners suffering from this disease in the jails of this Presidency, whereas the accommodation provided in the above two annexes is only for 50. The IG. therefore considers the provision of a separate jail for tuberculosis prisoners as

p 93 cf.

× (These are the only two jails in this Presidency with which tubercular annexes are attached), p 51.

p 93 cf

imperatively urgent and suggests, as an emergency scheme, that arrangements may be made to take over the Station Hospital buildings and utilize them, such as they are, with a few necessary additions and alterations, before the end of this year. These additions and alterations are estimated to cost Rs 10,3(
and the D.G. requests that the necessary allotment of funds may be sanctioned for the purpose from the amount of Rs 1,00,000 voted by the Govt. He says that if his proposals are sanctioned, he can complete the work departmentally and be in a position ~~and~~ to transfer 100 tubercular prisoners to the new jail before the end of the year.

3. As already pointed out the question of the purchase of the Station Hospital buildings by this Govt is under correspondence with the Govt. of India and it does not seem advisable to ask the military department to hand over possession to the jail department before a final decision is arrived at as to the terms of purchase. The Govt of India's reply has therefore to be awaited. In the meantime the file may go to finance for remarks as to whether they will realise the necessary funds from the sum of Rs 1,00,000/- already voted by Govt.

The Govt of India may be requested

Finance (Budget)

The Law Department enquire whether it will be possible to reallot a sum of Rs. 10,300 from the provision of Rs. 1,00000 in the budget estimates for 1925-26 for the Construction of a tuberculosis jail at Bellary which was resumed in Go. no: 364 (R) Finance, 26.5.25. At the Cabinet meeting on 5.5.25 the proposal to construct a tuberculosis jail at Bellary was abandoned and the sum of Rs. 1,00,000 was taken as savings in arriving at the surplus due to the remission of Provincial Contribution which was allotted for expenditure on new schemes relating to the Transferred departments. It is, therefore, submitted that the sum of Rs. 10,300 required in the present case cannot be found from the source indicated. The Law Department may be informed that the amount will have to found from some other source.

Rs.

Please see the Dg's letter read above. We may agree that, in the circumstances stated by him, the work of Constructing 6 Condemned Cells in the Central jail ~~Coimbatore~~ Trichinopoly may be postponed for execution next year and the allotment of Rs 8,500/- Sanctioned for the purpose may be reappropriated for

Carrying out the necessary alterations to the Indian Station Hospital buildings. The DG says that the balance of Rs 1800 still required for carrying out the alterations to the buildings [Can be found later on when the grant of Rs 8,500/- is fully Expended. ½ p 103-04 Cf

2. This department may also agree to provide a sum of Rs 8,500/- for the Construction of 6 Condemned Cells in the Central Jail Trichinopoly for 1926-27 – Please see paragraph 2 of the DG's letter on p 104 Cf. ½ p 104 Cf

3. In this Connection it is submitted that the Govt of India have agreed to the Sale of Plassey barracks and the Indian Station Hospital buildings on the terms offered by the Govt. The question of providing funds for payment of the value of the buildings is being considered in the linked file① and the building will be taken possession of as soon as the question of funds is settled. In the meanwhile, the file may be sent to Finance for remarks whether they agree to the DG's Emergency Sche

① on file / dis linked)

[The file was linked with the file relating to the purchase of Military buildings]

Revised

From the Dy. of Prisons. no. 6621 dy 30.8.25.
(Tuberculsis Jail – Station Hospital
Us. buildings Bellary)

As regards the question of funds for the payment of the value of the buildings to the Govt of India referred to in paragraph 3 of the office note on page 48 ante, it has since been decided to move the Leg. Council for a supplementary grant. The file may now go to Finance with reference to note on page 48 ante.

(Sep file)
a note for the F.C. is separated.

2. With reference to Govt Memorandum on page 92 cf. the Dy. has now renewed his proposals in regard to the General Scheme and requests that necessary provision of funds may be made in the Budget Estimate for 1926-27. The General Scheme is estimated to cost Rs 1,62,075 as shown below:—

separated from 1925 cf

		Rs
(a)	Cost of military buildings.	4056
(b)	Alterations and additions to the existing buildings	1,00,000
(c)	Equipment Charges —	9,071
(d)	Recurring charges for Establishment &c	12,441
		Rs 1,62,075

+ — (b) ante

Of these as stated above, steps are

being taken separately to provide funds for the payment of the value of the buildings this year and a sum of Rs 1,00,000/- on account of item (b) will be required next year. But the D.G. has not stated whether any provision will be required on account of items (c) and (d) next year. If the proposed emergency scheme is sanctioned this year and the minor alterations ~~&c~~ are carried out so as to make the buildings fit to receive tubercular prisoners by the end of this year, ~~as promised by the D.G.~~ it seems that both the equipment and establishment charges will also be necessary next year.

3. In this connection it is also for consideration whether the scheme should be treated as Part II ~~of~~ scheme or the ~~it~~ it will be sufficient if the necessary provision is made in Part I of the Estimates for 1926-27. The scheme as a whole has been approved by the Finance Committee last year and a provision of Rs 1,00,000/- was made in the current year's budget on account of the alterations to the buildings. But this provision,

Fr 41 ante
F 42 ante

Fr 93-94 C/

Since resumed by an order in Cabinet. The D.G. has however, brought forward an Emergency proposal Costing Rs 10,300/. and has suggested the necessary reappropriation of funds. If this is sanctioned, the whole Scheme may be treated as one, and the provision required for 1926-27, may be included in Part I of the Budget Estimate for 1926-27. The Finance may be requested to advise in the matter.

Fr 4 Now that it has been decided to move the Legislative Council for a supplementary grant to pay the amount due to the Military for the Station Hospital buildings & the Plassey barracks, the points for consideration are —

2.9.25

(1) Whether the emergency scheme suggested by the D.G. (viz, carry out certain repairs & alterations to the existing Station Hospital building at a cost of Rs 10300) should be proceeded with this year, the requisite funds being found by reappn. ~~out~~

(2) Whether it would be sufficient if the entire Scheme costing Rs 1.62 lakhs

~~Shoreditch~~ at the beginning of is taken up next year, the necessary funds being provided in Part I of the CBE.

Finance Should see.

~~It~~ It does not seem worth while proceeding with the emergency scheme now. ~~The money spent on it would probably be wasted~~. The new scheme provides for a reconstruction of the jail practically, and the money spent on the emergency scheme would ~~probably~~ be a waste.

P.M. 14/9 S

Finance. I agree. Let us wait the result of the motion

V.T.K. 15.9

US.

The Finance Committee have recommended the proposal to move for a Supplementary Grant for the purchase of the Plassey Barracks and Indian Station Hospital buildings, Bellary. A notice draft of this of motion has been prepared and is submitted in the linked file. Pending Sanction of the Leg. Council to the

Supplementary grant, this file may be sent to Finance for remarks whether they will agree to the necessary provision of funds for the establishment of a tuberculosis jail at Bellary being provided in Part I. of the C.B.E or whether it is necessary to treat it as a part II Scheme — please see paragraph 3 of the notes on pp 50-51 ante.

Fin U.O.

Finance (B.E.II)

[Notes from page 43 ante alone need be read]

The case relates to the construction of a tuberculosis jail at Bellary. The estimated cost of the work is Rs 1,62,075 as detailed at K on page 49 ante. A sum of Rs 1,00,000 was provided for the work in the budget estimates for 1925 but it was decided later that the work should not be proceeded with this year and the above provision was accordingly resumed.

2. Action is however being taken separately to obtain a supplementary grant from the Legislative

to meet the cost of the Indian station hospital buildings in which the gaol is to be situated and which is to be taken over from the military authorities. The Law Dept. to enquire whether the provision required for proceeding with the scheme next year may be made in Part I of the estimates.

In para 29 of the Budget Manual it has been laid down that all schemes of new expenditure which have not already been given effect to and for which funds have not been provided by a vote of the Council should be treated as Part II Schemes. In the present case, though it was originally decided not to proceed with the scheme in the current year and the provision made for it in the budget for 1925-26 was removed, action is now being taken to provide the funds required for a part of the scheme (viz to purchase the Indian station hospital buildings from the military authorities) by a supplementary grant from the Leg. Council. It does not therefore seem necessary to treat the scheme and the necessary provision may be included in Part I of the estimates as a Part II scheme for 1926-27. If this view is accepted, the Law Dept. may be requested to ascertain definitely from the J.G. the provision required in 1926-27 — Cf. para 2 on pages 49-50 ante

2. The finance department is taking the necessary action to provide a sum of Rs 1,00,000/- for the alterations to the buildings in the budget estimate for 1926-27.

3. As regards the other recurring and non recurring charges attention is invited to the DGs no. note on pp 59-61 ante. He says that it should be possible to transfer tubercular patients soon after the initial alterations to the buildings are carried out and that this will not take more than four months. He accordingly recommends the following provision in the next year's budget:—

III Central Jails — (Recurring)

	Rs
allowance to medical Officer for Medical charge of the Tuberculosis Jail, Bombay (at Rs 100 a month for 8 months)	800/-
Pay of establishment etc— Tuberculosis Jail Bombay (for 8 months)	4,560.
	Rs 5,360/-
(non-recurring) — Equipment Charges	
Supplies & Services—General— Miscellaneous lump provision towards the Cost of Cots, arms &c	4,000
Supplies & Services—Special— Medical and Sanitary lump provision towards initial equipment and Surgical instruments.	5,000
	Rs 9,000

The details of the expenditure involved are given by the D.G. on p 61 C/f/n. Attention is also invited to the Statement furnished by the D.G. on p 71 C/f/n. This department may accept ~~after~~ with the D.G's proposals and ~~request the~~ Finance (may be requested) department to make the necessary provision in the next year's budget.

3.12.25

In addition to the provision of Rs 1 lakh originally asked for by the Law (Genl) Dept. for buildings for the Tuberculosis Jail, Bellary, they now propose a provision of Rs 14,400 for establishment and certain ~~non-recurring~~ Contingent charges for initial equipment. The provision now proposed is the same as that accepted in Finance last year when the scheme was placed before the Finance Committee as a Part II scheme for 1925-26. No provision was included in the budget for 1925-26 for establishment and contingencies as it was thought that no expenditure on these

Law (General) Dept

U.S. (Tuberculosis Jail, Pokhara)

The necessary provision of funds has been made in the next years' budget for the Conversion of the Indian Station Hospital buildings into a tuberculosis jail at Pokhara.

2. The next step to be taken is to accord administrative approval to the Scheme. Post before the file is sent to P. W. D. for the purpose, the disposal of the queries as to the adjustment of accounts on account of the value of the

workings dealt with in the linked file may be awaited. The work can be proceeded with only after the budget is finally passed by the Council

2.26

13-2

Us.

In Govt memorandum no. dt 22-3-26. the A.G. was asked to make the necessary adjustments in the accounts for 1925-26. But the question of handing over possession of the Wellesley lines has not yet been settled. The A.G. is being reminded in the linked file. Perhaps the Govt may now be requested to accord Administrative approval to the Scheme subject to the condition that the work should not be taken up for execution before the question of taking over possession of the Wellesley lines has been finalised. P.W.D.

Provision has also been made for 3 months for the Staff required for the tuberculosis jail. Perhaps the Dy. may be asked to come up to Govt. for the required Staff as soon as the alterations to the buildings are completed. P.W.D may be requested to add a paragraph for the draft order to this effect.

This may be done in Law – after orders issue in PWD. PWD will no doubt send us a cy after orders.

Jails – Indian Station Hospital buildings and Wellesley lines – taking over possession

Rs.

The Dy's reply has not yet been received. Finance have stated that steps should be taken to see that the adjustment is made within the Current year.

2. For orders whether the A.G. may now be asked to carry out the adjustments in the accounts immediately. The question of taking over possession of the Wellesley lines may be considered when the Garrison Engineers reply is received.

I think this is desirable

(The Dy was reminded by telephone on the 16th).

(Page 43 Ct Seq only may be read) Vide W.D

The approximate cost of the work for the Conversion of the Station hospital buildings at Bellary into a Tuberculosis hospital is Rs 1,22,790. It is considered that a saving of Rs 22,790 can be effected by the employment of Convict labour and by the work being undertaken by the staff of the Jail as a Public works Labourer. ~~The cost of the work will therefore be reduced to Rs 1,00,000. And this provision has been made in the budget for 1926-27.~~

Attention is invited to GO No. 1431 W dt 12.9. And GO No. 100 W dt 21.1.1926. It has been decided that all Jail works costing over Rs 5? Shall be carried out by the P.W.D, Jail labour being employed as far as possible and in view of this it was definitely ordered in GO 100 W dt 21.1.26 that the work in the present Case viz Conversion of the Station Hospl buildings at Bellary into a Tuberculosis Jail, Shall be Carried out by the P.W.D. In any Case the full cost of labour will be debited to the work by a corresponding book credit to the Jail Dept. It is therefore necessary that administrative approval ~~to~~ be accorded to the full Cost of the work that is Rs 1.22.790 and the work

Carried out by the P. W. D. The provision of Rs 1 lakh in the budget for 1926-27 is also under works in Charge of P. W. officers.

In this view, a draft order is submitted and it may be sent to Law (Genl) and Finance for acceptance.
